RICHMOND SPCA
DOCUMENT RETENTION AND DESTRUCTION POLICY

1. Policy and Purposes

This is the policy of the Richmond SPCA (the "organization") with respect to the retention and destruction of documents and other records, both in hard copy and electronic media (which may merely be referred to as "documents" in this Policy). Purposes of the Policy include (a) retention and maintenance of documents necessary for the proper functioning of the organization as well as to comply with applicable legal requirements; (b) destruction of documents which no longer need to be retained; and (c) guidance for the Board of Directors, officers, staff and other constituencies with respect to their responsibilities concerning document retention and destruction. Notwithstanding the foregoing, the organization reserves the right to revise or revoke this Policy at any time.

2. Administration

The organization’s CEO and CFO shall both serve as administrators ("Administrators") in charge of the administration of this Policy. The Administrators’ responsibilities shall include supervising and coordinating the retention and destruction of documents pursuant to this Policy and particularly the Document Retention Schedule included below. The Administrators shall also be responsible for documenting the actions taken to maintain and/or destroy organization documents and retaining such documentation. The Administrators may modify the Document Retention Schedule from time to time as necessary to comply with law and/or to include additional or revised document categories as may be appropriate. The Administrators are also authorized to periodically review this Policy and Policy compliance with legal counsel and to report to the Board of Directors or Executive Committee as to compliance. The Administrators may appoint one or more assistants to assist in carrying out the Administrators’ responsibilities. The organization’s staff and Board shall act in accordance with this Policy and shall assist the Administrators, as requested, in implementing it. Depending upon the sensitivity of the documents involved, the organization, through the Administrators, may share this Policy with the vendors, service providers and volunteers, requesting their compliance. In particular instances, the Administrators may require that the contract with any such outsider specify the particular responsibilities of the outsider with respect to this Policy.

3. Suspension of Document Destruction; Compliance

The organization becomes subject to a duty to preserve (or halt the destruction of) documents once litigation, an audit or a government investigation is reasonably anticipated. Further, federal law may impose criminal liability upon whomever "knowingly alters, destroys, mutilates, conceals, covers up, falsifies, or makes a false entry in any record, document, or tangible object with the intent to impede, obstruct, or influence the investigation or proper administration of any matter within the jurisdiction of any department or agency of the United States ... or in relation to or contemplation of any such matter or case." If the Administrators become aware that litigation, a governmental audit or a government investigation has been instituted, or is reasonably anticipated or contemplated, they shall immediately order a halt to all document destruction under this Policy. The Administrators may thereafter amend or rescind the order after conferring with legal counsel. If any Board member or staff member becomes aware that litigation, a governmental audit or a government
investigation has been instituted, or is reasonably anticipated or contemplated, with respect to the organization, and they are not sure whether the Administrators are aware of it, they shall make the Administrators aware of it. Failure to comply with this Policy, including, particularly, disobeying any destruction halt order, could result in possible civil or criminal sanctions. In addition, for staff, it could lead to disciplinary action including possible termination.

4. Electronic Documents; Document Integrity. Documents in electronic format shall be maintained just as hard copy or paper documents are, in accordance with the Document Retention Schedule. Due to the fact that the integrity of electronic documents, whether with respect to the ease of alteration or deletion, or otherwise, may come into question, the Administrators shall attempt to establish standards for document integrity, including guidelines for handling electronic files, backup procedures, archiving of documents, and regular checkups of the reliability of the system; provided, that such standards shall only be implemented to the extent that they are reasonably attainable considering the resources and other priorities of the organization.

5. Privacy. It shall be the responsibility of the Administrators, after consultation with counsel, to determine how privacy laws will apply to the organization’s documents from and with respect to employees and other constituencies; to establish reasonable procedures for compliance with such privacy laws; and to allow for their audit and review on a regular basis.

6. Emergency Planning. Documents shall be stored in a safe and accessible manner. Documents which are necessary for the continued operation of the organization in the case of an emergency shall be regularly duplicated or backed up and maintained in an off-site location. The Administrators shall develop reasonable procedures for document retention in the case of an emergency.
